FIG. 9 is a perspective view of a multi-layered structure 900, showing a top layer 905, a middle layer 904, and a bottom layer 903. The top layer 905 is a rectangular plate with a dashed line indicating a cutout. The middle layer 904 is a rectangular plate with a central rectangular opening. The bottom layer 903 is a rectangular plate with a series of small rectangular protrusions along its top edge. The layers are stacked and aligned, with the top layer 905 positioned above the middle layer 904, which is positioned above the bottom layer 903. The bottom layer 903 is shown in a perspective view, revealing its internal structure, which includes a series of small rectangular protrusions along its top edge, a series of small rectangular openings along its bottom edge, and a series of small rectangular protrusions along its side edges. The top layer 905 is shown in a perspective view, revealing its internal structure, which includes a series of small rectangular openings along its top edge, a series of small rectangular protrusions along its bottom edge, and a series of small rectangular protrusions along its side edges. The middle layer 904 is shown in a perspective view, revealing its internal structure, which includes a series of small rectangular openings along its top edge, a series of small rectangular protrusions along its bottom edge, and a series of small rectangular protrusions along its side edges.
